- ❖ **No surface dust contamination!**
- ❖ **Bright, natural surface finish!**
- ❖ **Dust is inert and transparent!**

Product Details – Applications

- #1. Very coarse granular mix to be used for heavy scale and/or contaminate removal. Produces 3+ mil profile on steel applications.
- #2. Medium graded granular mix to be used for medium scale and contaminate removal. Produces 2 – 2.5 mil profile on steel applications.
- #3. Fine graded granular mix to be used for fine profiling and on soft metal (non-ferrous) surfaces. Produces up to 1.5 mil profile.
- #4. Ultra-fine granular mix to be used for cleaning delicate surfaces. Good as a substitute in baking soda, corn starch, and walnut shell applications.
